WEIGHT REDUCTION SYSTEM

Take the soft, durable features of neoprene, combine them with OP/TECH USA's patented "control-stretch" backing and you get the most comfortable strap ever made. This revolutionary design actually helps reduce uncomfortable neck and shoulder pressure, fatigue and bounce. The strap contours to the shoulder and neck, thus effectively distributing the weight over a larger area. The "control-stretch" system functions as a shock absorber to ease the stress felt in the neck and shoulders. OP/TECH USA straps make a heavy load feel up to 50% lighter and 100% more comfortable.

NEW STYLES! SYSTEM CONNECTORS

With the OP/TECH USA **SYSTEM CONNECTORS**, individuals have several connection options from which to choose. Straps can be lengthened to be worn across the chest or shortened to be worn at chest level. Another feature of many of the **SYSTEM CONNECTORS** is the small carrying handle created when the quick disconnects of the System Connectors are latched together. The Uni-Loop Connectors allow users to have a universal system with many other OP/TECH USA products. Available in sets of two and only from OP/TECH USA. (Adapt-Its™, Mini QD Loops & Secure-Its™ come in sets of 4.)

#1 Swivel Hook Connectors

Great for use on small bags, cases, battery packs and much more. Can be used on cameras with the Utility Loop (#7) or Adapt-Its™ (#11). Adjustable from 11"-17" (27,9 - 43,2 cm) ea side.
STOCK # 1301072

Comes in sets of 2

#2 Adjustable Connectors

Featuring patented thermoplastic-rubber connectors that hold strong but remain flexible. Adjustable from 8½"-13" (21,6 - 33 cm) ea side.
STOCK # 1301152

Comes in sets of 2

#3 ¾" Connectors (Regular & X-Long)

Our most popular connector! Durable ¾" webbing with triglides. Fully adjustable: (Regular) 4"-17" (10 - 43,2 cm) ea side.
STOCK # 1301252
(Extra Long) 4"-23" (10 - 58,4 cm) ea side.
STOCK # 1301262

Comes in sets of 2

#4 Pro Loop Connectors (Regular & X-Long)

Uses ¼" tubular nylon webbing which fits easily on cameras with tight connection areas. Fully adjustable: (Regular) 10"-13" (25,4 - 33 cm) ea side.
STOCK # 1301372
(Extra Long) 13"-19" (33 - 48,3 cm) ea side.
STOCK # 1301382

Comes in sets of 2

#5 Super Pro "A" Connectors

For medium-format cameras with connection lugs, the Super Pro "A" fits many Bronica, Hasselblad, Kiev and Pentax LX cameras. Adjustable from 10"-15" (25,4 - 38,1 cm) ea side.
STOCK # 1301022

Comes in sets of 2

#6 Super Pro "B" Connectors

For medium-format cameras with connection lugs, the Super Pro "B" fits many Mamiya, Olympus IS, Rollei and Pentax 6X7/645 cameras. Adjustable from 10"-15" (25,4 - 38,1 cm) ea side.
STOCK # 1301292

Comes in sets of 2

#7 Utility Loop Connectors

This unique adaptor allows a camera to be attached to a Swivel Hook Strap configuration. Approx 3" (7,6 cm) long ea side.
STOCK # 1301222

Comes in sets of 2

#8 Uni-Loop Connectors

The Uni-Loop system allows a camera or binoculars to be used with several neck straps, wrist straps or harness systems. Approx 3½" (8,9 cm) long ea side.
STOCK # 1301062

Comes in sets of 2

#9 Uni Adaptor Loop Connectors

Converts any OP/TECH USA neck strap to be completely interchangeable with OP/TECH USA wrist straps and harness systems. Adjustable from 10½"-13½" (26,7 - 34,3 cm) ea side.
STOCK # 1301012

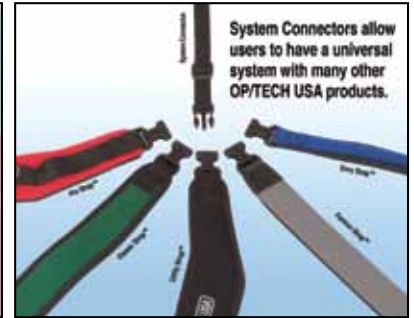

Comes in sets of 2

#10 Reporter/Backpack Connectors

Using our popular Uni-Loop connectors and rugged strap clips, the Reporter/Backpack converters allow users to add a second camera or binoculars to a neck strap or backpack. Adjustable from 8½"-10½" (21,6 - 26,7 cm) ea side.
STOCK # 1301652

Comes in sets of 2

#11 Adapt-Its™

Rugged, flexible ADAPT-ITS™ are the low-profile way to add a swivel connector strap to any connection area. Approx. 1" (2,5cm) long.
STOCK # 1301322

Comes in sets of 4

#12 Mini QD Converters

MINI QD CONVERTERS allow users to fasten many OP/TECH USA straps to small cameras. It combines ¼" tubular nylon webbing with a miniature ¾" quick disconnect to create the "step up" to a larger strap. Adjustable from 3"-7" (7,6 - 17,8 cm) ea side.
STOCK # 1301282

Comes in sets of 2

#13 Lens Support Adaptor

LENS SUPPORT ADAPTOR clips to a strap and fastens around the lens to support and stabilize a longer lens. Can also be combined with the HOOD HAT™ (sold separately)
STOCK # 1301212

(see above for in-use shot)

#14 NEW! Sling Strap Adaptor

SLING STRAP ADAPTOR clips onto a strap pad to convert it into an over-the-shoulder sling. Includes 2 Uni-Loop connectors. Cameras with a third connection point located on the grip use two Uni-Loops. All other cameras use only one Uni-Loop.
STOCK # 1301242

Comes with 2 Uni-Loop Connectors (see above for in-use shot)

#15 NEW! Extension Connectors

EXTENSION CONNECTORS are the handy way to add 7½" to 11" (19 - 27,9 cm) of length to an OP/TECH USA strap. Also works great with Uni-Loop Connectors for a standard-length strap.
STOCK # 1301052

Comes in sets of 2

#16 NEW! Mini QD Loops

MINI QD LOOPS allow users to fasten small cameras to many OP/TECH USA neck straps. They incorporate a thin cord loop for tight connection areas and ¾" quick disconnects for easy attachment to strap.
STOCK # 1301082

Comes in sets of 4

#17 NEW! Secure-Its™

SECURE-ITS™ are easy to attach, non-marring connectors for those who want added security on quick disconnects. Simply thread them through the connectors and touch fasten for extra peace of mind.
STOCK # 1301042

Comes in sets of 4

Secure-Its™ in use

ENVY STRAP™ - 3/8"

- Padded comfort in a non-stretch design
- High-tech memory foam for comfort
- Antimicrobial material allows moisture to dissipate
- Tailored design in a slim profile
- Quick Disconnects

ENVY STRAP™ is sure to be the envy of every photo enthusiast. The unique high-tech memory foam contours to the shape of the neck and shoulders creating a custom fit. The antimicrobial material draws away moisture so it's comfortable in all weather conditions. This special feature is particularly important for those photographers working in hot climates for prolonged periods of time. The tailored, non-stretch design offers photographers a nice alternative to the traditional camera strap. It incorporates OP/TECH USA's 3/8" System Connectors for added versatility.

ENVY STRAP™			
Adjustable Size: Approximately 26" - 52" (66cm - 132,1cm)

FASHION STRAP™

FASHION STRAP™ - 3/8"

FASHION STRAP™ - BINO

- Fits most cameras & binoculars
- Easy to attach
- Quick disconnects
- Very strong & durable
- Fully adjustable

FASHION STRAP™ is the original neoprene strap and incorporates only the finest materials available. The neoprene is bonded on both sides with top quality material for added strength and a controlled stretch. The OP/TECH USA patented connectors add a unique finishing touch. They are easy to attach and extremely strong. The quick disconnects give the strap added versatility which is a real bonus when customizing the strap for different needs. The weight reduction system makes cameras and binoculars feel 50% lighter and 100% more comfortable. FASHION STRAP™ - 3/8" uses OP/TECH USA's 3/8" Webbing Connector System that fits easily through tight connection areas and offers a very secure alternative to the original FASHION STRAP™. For customers who prefer a shorter, simpler design, OP/TECH USA offers the FASHION STRAP™ - BINO. It does not have quick disconnects which allows it to work well with most rainguards. It's extremely adjustable and uses 3/8" webbing to fit easily in tight connection areas. Ideal for binoculars!

BINO/CAM HARNESS™

- Fits most cameras & binoculars using the Uni-Loop QD system
- Stabilizes gear while enabling it to glide up and down the strap
- Easy to attach and fully adjustable
- Available in black in two versions: webbing & elastic

A perfect solution for the outdoor enthusiast seeking a simple harness system for cameras or binoculars. The BINO/CAM HARNESS™ self-adjusts to comfortably balance gear while in use or in the idle position against the body. The unique loop attachment system enables the harness to quickly snap in place using our Uni-Loop quick disconnects. These connectors can then be used on many other OP/TECH USA strap configurations.

E-Z COMFORT STRAP™

- Streamlined neoprene design fits most cameras & binoculars using 3/8" webbing
- Very strong & durable
- Lightweight & comfortable
- * Compatible with most binocular rainguards

The "no frills" approach to a comfortable and functional neck strap is what OP/TECH USA offers in the E-Z COMFORT STRAP™. The slim design and easy-to-use connection system make this a great strap for binoculars and cameras. It combines high quality neoprene, top grade leather and 3/8" webbing to create a simple, yet comfortable strap. Getting down to basics without sacrificing quality is what the E-Z COMFORT STRAP™ is all about.

STABILIZER STRAP™

- Fits over most cameras/ lenses and holds them close to the body
- Easy to attach around the waist with a quick disconnect
- Fully adjustable

The neoprene STABILIZER STRAP™ holds the camera close to the body which leaves hands free to navigate rough hiking trails or crowded streets without fear of damaging expensive cameras. STABILIZER STRAP™ ensures quick and easy access to the camera by merely stretching the neoprene over the camera lens for quick removal. The STABILIZER STRAP™ can be used with any neck strap and removed when the added stability is not necessary.

STABILIZER STRAP™			
Stock #	Description	Approx. Size (L)	Color

CLASSIC STRAP™

- Fits most cameras & binoculars using 3/8" webbing connectors
- Tailored design incorporates "Comfort-Stretch" binding for added support
- Easy to attach
- Fully adjustable
- Quick disconnects

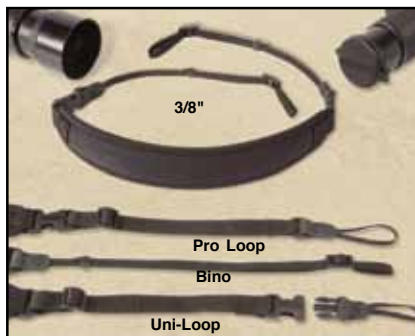

The CLASSIC STRAP™ adds a touch of class to any camera or binocular. The tailored design is made with soft, durable neoprene combined with a unique "Comfort-Stretch" binding. While the neoprene evenly distributes the weight, the unique binding gives added support in order to eliminate shoulder and neck fatigue. This combination makes cameras and binoculars feel 50% lighter and 100% more comfortable. The quick disconnects give the strap an added feature as they can be attached together to form a small carrying handle when the shoulder strap is not in use. Your customers get two straps in one! CLASSIC STRAP™ is sure to be a "classic"!

SUPER CLASSIC STRAP™

- Ideal for heavy cameras & gear
- Tailored neoprene design combines "Comfort-Stretch" binding with a patented internal "Control-Stretch" system for added support

- Available in 4 styles:

3/8" Webbing: adjustable from 25" - 51"
Pro Loop: adjustable from 37" - 44"
Bino 3/8" (No QDs): adjustable from 23" - 67"
Uni-Loop: adjustable from 36" - 43"

For the photographer/birdwatcher carrying a heavy camera or binoculars, the SUPER CLASSIC STRAP™ is a great option. It has the same tailored design as the popular CLASSIC STRAP™; however, it adds the patented internal control-stretch system found in our S.O.S. STRAP™ in addition to our Non-Skid Surface. This combination is ideal for the individual desiring a narrower strap design that has the needed strength and comfort features required for handling a heavy load. SUPER CLASSIC STRAP™ is sure to please!

PRO STRAP™ - 3/8" & PRO LOOP STRAP™

- Neoprene strap fits most cameras & binoculars
- Quick disconnects
- Very strong & durable
- Non Slip Grip™

The PRO STRAP™-3/8" and the PRO LOOP STRAP™ offer serious photographers using large cameras and lenses or a portable power pack a welcome reprieve from the heavy weight of their gear. The patented weight reduction system makes equipment feel 50% lighter and 100% more comfortable. The weight is evenly dispersed while the strap functions as a shock absorber to eliminate neck and shoulder fatigue. The 3/8" Webbing Connectors give added adjustability and versatility so a camera can be easily worn across the chest if desired. The Pro Loop Connectors are ideal for especially tight connection points. They loop through the connection area to form a slip knot which "falls" away freely from the camera when in use. A comfortable and secure system! The PRO STRAP™-3/8" is adjustable from 24" - 51" and the PRO LOOP STRAP™ is adjustable from 37" - 44".

PRO STRAP™

SUPER PRO STRAP™

- A choice of two designs fits most medium format & cameras with retaining lugs
- Easy to attach
- Fully adjustable
- Very strong & durable
- Quick disconnects
- Non Slip Grip™

Users of medium format and other cameras with retaining lugs can benefit from OP/TECH USA's patented weight reduction system. SUPER PRO STRAP™ is available in a choice of two clip designs to better fit the different camera models on the market. OP/TECH USA has developed a unique locking slide mechanism which adds extra protection for a secure connection. Once the metal clip is attached to the retaining lug, the plastic locking slide is secured in position behind the metal clip. This prevents the clip from inadvertently opening—another innovative design created by OP/TECH USA! The SUPER PRO STRAP™ is adjustable from 36" - 45".

NEW STYLE! UTILITY STRAP™ SERIES—SWIVEL, 3/8", SLING

- Neoprene strap available in 3 versions:
Swivel Hook, 3/8" & Sling Version
- Quick Disconnects
- Non-Skid Surface

The UTILITY STRAP™ is available in three styles: Original (swivel hooks), 3/8" & the New Sling version. The original version uses 3/4" webbing and rugged locking swivel hooks for fast and easy attachment to small bags, battery packs and much more. The 3/8" version is ideal for cameras and binoculars. The new Sling version offers rapid access to gear while maintaining the security of a strap worn across the shoulder. Using OP/TECH USA's exclusive Uni-Loop connectors, gear hangs securely at the side and will glide up and down the sling without interfering with a camera's tripod connection. Cameras with only two connection areas will only use one Uni-Loop. Cameras with an additional connection area on the side of the camera will use both Uni-Loop connectors. The neoprene strap incorporates the patented OP/TECH USA internal-control stretch system to offer added support and ideal comfort. The non-skid surface keeps it securely on the shoulder and the added comfort makes carrying heavy gear a joy.

UTILITY STRAP™			
Color	3/8" Version (26" - 53") (66cm - 134,6cm)	Swivel Version (40" - 53") 101,6cm - 134,6cm)	Sling Version (26.5" - 31")* (67,3cm - 78,7cm)*

* Measured from top of shoulder to end of Uni-Loop connector

GRIP STRAP™

- Fits most SLR cameras
- Enables a hand grip option without interfering with the ability to have a neck/shoulder strap
- Includes a custom metal base plate with rubberized pad and case screw
- Attaches to the camera with OP/TECH USA's Uni-Loop QD system and to the base plate with 3/8" webbing
- Secures around the back of the hand as well as around the wrist for added comfort and grip relief

GRIP STRAP™ offers a secure system for carrying an SLR camera in the hand. The metal base plate has a rubber pad to protect the camera's finish and uses a case screw to firmly attach to the tripod mount area. The GRIP STRAP™ is secured to the base plate and one of the camera attachment areas. The base plate can be removed if a third attachment area exists on the camera. This method keeps the tripod mount area available for use. The unique Uni-Loop QD system enables the strap to quickly snap in place. This connector is compatible with other OP/TECH USA strap configurations. The GRIP STRAP™ is adjustable to fit snugly across the back of the hand and attaches comfortably around the wrist with snaps. This dual system provides a comfortable and secure strap.

NEW! E-Z GRIP STRAP™

- Fits most SLR cameras
- Fast and very comfortable Neoprene Hand Grip
- Attaches to the camera with OP/TECH USA's Uni-Loop QD system and to the base plate with 3/8" webbing

The new E-Z GRIP STRAP™ has many of the same features as our popular GRIP STRAP™ but in a new and streamlined configuration. The E-Z GRIP STRAP™ is ideal for the photographer who wants the stability of a hand strap with the flexibility to get in and out of the grip quickly and easily. The metal base plate has a rubber pad to protect the camera's finish and uses a case screw to firmly attach to the tripod mount area of the camera. The Uni-Loop connector is compatible with many other OP/TECH USA strap configurations.

GOTCHA WRIST STRAP™

- Fits most cameras & binoculars
- Fully adjustable
- Quick disconnect
- Connects with the Uni-Loop QD

GOTCHA WRIST STRAP™ wraps snugly and comfortably around the wrist and attaches easily to a camera or binoculars. The touch fastener forms a secure, yet adjustable closure. The quick disconnect enables the user to quickly remove the strap when changing film, media cards and batteries. The Uni-Loop connection system can be quickly switched from the GOTCHA WRIST STRAP™ to many other OP/TECH USA straps. OP/TECH USA has "gotcha" covered with the GOTCHA WRIST STRAP™.

SLR WRIST STRAP™

- Fits most SLR cameras and binoculars
- Neoprene strap secures comfortably around the wrist while the unique Uni-Loop system attaches to the camera
- Security slide tightens the strap around the wrist

OP/TECHUSA's SLR WRIST STRAP™ offers a comfortable alternative to carrying an SLR camera or other gear. It attaches to the camera with our unique Uni-Loop System which gives it added versatility. The neoprene wrist strap is adjusted around the wrist with a security slide to keep it firmly in place. Keeping it simple and secure is the secret to the SLR WRIST STRAP™. It offers good peace of mind when shooting without a neck strap.

S.O.S. STRAP™, S.O.S. CURVE STRAP™ & MINI S.O.S. STRAP™

- Neoprene strap fits most bags, briefcases, computer bags and luggage
- Patented control-stretch system reduces the felt weight by up to 50% by effectively distributing the weight and absorbing the shock of one's movements.
- Available in three styles: S.O.S. STRAP™, S.O.S. CURVE STRAP™ and MINI S.O.S. STRAP™
- Easy to attach with metal swivel hooks or 1½" (3,8cm) webbing (Note: MINI S.O.S. STRAP™ uses 1" (2,5cm) hooks & webbing)
- Non-Skid Surface for maximum grip

TRIPOD LEG WRAPS™

- Fits most tripods & monopods
- Each leg is individually wrapped to protect the legs against damage and to give the user added comfort against shoulder fatigue
- Available in black in a choice of three sizes to fit 1", 1¼" & 1½" tripod leg diameters

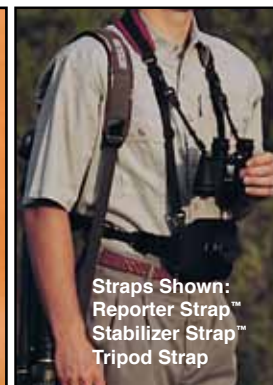

For those photographers or outdoor enthusiasts seeking comfort in an alternative carrying system, OP/TECH USA offers the **TRIPOD LEG WRAPS™**. Each leg is individually wrapped to protect legs against damage and to give the user added comfort against shoulder fatigue. It also keeps the cold metal legs "under wraps" and away from the photographer's skin. **TRIPOD LEG WRAPS™** protect the finish of the tripod keeping it looking like new. The wraps also muffle sound so the photographer is free to change location without noisily banging equipment against the tripod causing a distraction at weddings, events or to wildlife. Closed-cell foam pads are held firmly to the tripod legs using a low-tack tape which secures the wraps without leaving a sticky residue. The durable Cordura® leggings are then stretched over the foam pads for a seamless, comfortable fit. The 17" length can be easily customized to fit tripods with shorter legs. Finally photographers can toss their tripod over their shoulder in comfort.

Cordura® is a registered trademark of DuPont®.

TRIPOD STRAP & TRIPOD STRAP-SWIVEL

- Neoprene strap fits most tripods
- Offered in two styles: ORIGINAL and SWIVEL
- Quick and easy attachment systems
- Very strong, durable and washable
- Available in black and nature

Both the **TRIPOD STRAP** and **TRIPOD STRAP-SWIVEL** incorporate soft, durable neoprene with OP/TECH USA's patented internal-control stretch system. This system effectively distributes the weight of the tripod while absorbing the shock of movement. The result is the most comfortable strap available. The non-skid surface securely grips to one's shoulder so hands are free to deal with other equipment or navigate rough terrain. Both styles offer versatility in the way the tripod can be carried. It can be adjusted so the tripod is horizontal against one's side or in the vertical position down the back. This allows for the camera gear to remain on the tripod when being moved.

The **TRIPOD STRAP** attaches on both sides with webbing that loops around the tripod and connects with a quick disconnect for fast, easy connection. The **TRIPOD STRAP-SWIVEL** uses the loop attachment for the head of the tripod and a swivel hook to attach to an eyelet on the center bracket. Two great styles offering ideal comfort and convenience!

TRIPOD STRAP		
Color	Original 19.5" - 49.5" (49,5cm - 125,7cm)	Swivel Hook (28" - 48") (71,1cm - 121,9cm)
Black	1201012	1201072
Nature	1210012	1210072

MINI LOOP STRAP™-QD

The **MINI LOOP STRAP™-QD** is a snap to attach to cameras, binoculars or light meters with only one connection point. It has a large range of adjustability (17" - 25" [43,2 - 63,5cm]*) using a unique slide and includes a mini quick disconnect (QD) for added convenience. It can be comfortably worn around the neck or shoulder.

The mini quick disconnect enables the user to quickly remove their equipment in order to attach the **CAM STRAP™-QD** wrist version, **FINGER CUFF™-QD** or to merely store the equipment away in a small pouch. It uses a 1.5 mm loop-style cord attachment for cameras, binoculars or light meters with only one connection point.

MINI LOOP STRAP™-QD

Royal	6904021	Skull	6922021
Wine	6906021	Swirl	6923021

FINGER CUFF™-QD

- Unique strap is ideal for small cameras & electronics
- Attaches easily to a variety of devices with mini quick disconnect
- Compact & comfortable neoprene cuff fits on any finger
- Small 1.5 mm cord fits even the tightest connection areas

OP/TECH USA's **FINGER CUFF™-QD** is the smallest strap yet! This unique strap is ideal for small cameras and electronics. It attaches easily with a mini quick disconnect and is compatible with OP/TECH USA's **CAM STRAP™-QD** and **MINI LOOP STRAP™-QD**, giving one the freedom to decide which strap is best suited for each occasion.

The **FINGER CUFF™-QD** is ideal for the user who wants to carry as little as possible while keeping the compact camera firmly attached to the hand. It fits snugly around any finger for a "barely there" feeling while still offering complete security against dropping. As compact cameras continue to shrink, they actually become a bit more difficult to hold and very easy to drop. The **FINGER CUFF™-QD** ensures that the photographer has the perfect strap for any occasion or use.

For even more fun, the **FINGER CUFF™-QD** is available in several fashionable patterns: black, skull, pink swirl, green plaid and dots.

12 Pk. Asst.	3412026				

* Note: All of the small straps are measured from the middle of the strap to the end of the connection area (similar to necklace measurements).

CAM STRAP™-QD

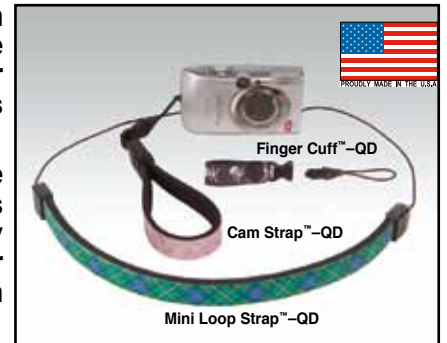

CAM STRAP™-QD is the perfect solution for carrying a point-and-shoot camera, stopwatch, radio or any other small item with one connection point around the wrist. The **CAM STRAP™-QD** features a mini quick disconnect for added convenience and versatility. It uses a small cord (1.5 mm) for tight connection areas. This strap is 10" (25,4cm) long* and offers a convenient slide to comfortably secure the strap around the wrist. It uses a loop-style attachment for cameras or light meters with only one connection point. Merely disconnect the mini QD, slide the small cord through the connection area creating an opening large enough to loop through the remaining part of the mini QD. Once secured, simply reattach to the main body of the strap. It is sure to be a nice addition to anyone's gear.

COMPACT STRAP TRIO™

- Multi-strap system offers ultimate versatility for compact cameras and other gear.
- Includes three great straps that can easily interchange or be shared with friends
- Loop connectors with mini quick disconnects attach easily to cameras & other compact gear enabling quick, easy changes between straps.
- Several fun & fashionable prints available
- Small 1.5 mm cord fits even the tightest connection areas

The **COMPACT STRAP TRIO™** is perfect for when choosing between a wrist, neck or finger strap becomes too difficult a decision. The **COMPACT STRAP TRIO™** includes a **Mini Loop Strap™-QD**, **Cam Strap™-QD** and the **Finger Cuff-QD**. As each neoprene strap version comes with a mini quick disconnect with a loop connection, the user can quickly change from a finger, neck or wrist mode of attachment.

Available in black, skull, pink swirl, green plaid and dots!

MEDIA KEEPER™

- Holds and protects SD cards in jewel cases or CF Cards
- Unique design fastens conveniently around a camera strap or a belt
- Can be threaded through an OP/TECH USA quick disconnect for added strap security
- Unfolds like a wallet for easy access to card pockets
- Made of top-grade leather

The **MEDIA KEEPER™** is a felt-lined leather pouch that opens like a wallet. It features two pockets that nicely fit an SD card in a jewel case or a CF card. The hook fastener secures the contents and offers quick, easy access.

The **MEDIA KEEPER™** can also be threaded through the quick disconnect (QD) on an OP/TECH USA camera strap as an added safeguard.

MEDIA KEEPER

Stock #	Description	Approx. Size (W x L)	Color
4701102	Media Keeper	2" x 2¼" (5,1 x 5,7cm)	Black

MEDIA HOLSTERS™

- Compact neoprene pouch holds a media card case or batteries
- Loop attachment easily slides onto camera strap or belt
- Touch closure secures contents and offers quick, easy access
- Contains two Media Holsters™

BIN/OP STRAP™-QD

BIN/OP STRAP™-QD provides a stylish and comfortable carrying system for compact binoculars or cameras with two connection points. The **BIN/OP STRAP™-QD** uses small cord (1.5 mm) in the loop attachments which is ideal for cameras/binoculars with tight connection areas. The mini quick disconnects provide added versatility in a compact design. The main strap can be easily removed if desired. It's adjustable from 28" to 36" (71,1cm to 91,4cm).

BIN/OP STRAP™-QD

2201021	2202021	2203021	2204021	2206021	2219021

1. Detach the loop connector from the strap at the mini quick disconnect.

2. Slide the cord through the retaining lug and create an opening large enough to loop through the remaining part of the connector.

3. Pull the connector system tight to form a secure hold. Reattach to strap.

STRAPEEZ™

- Versatile 8" straps designed to organize cords, tools, etc.
- Self-attachment system joins several STRAPEEZ™ together
- Available in sets of 6 in black or red/royal blue assortment

Finally, the perfect solution for organizing power cords, computer cables, ropes, tools and other items. **STRAPEEZ™** has a unique attachment system which easily adheres to itself or to other **STRAPEEZ™** to create a longer length. It can be attached to a single cord so that when the bundle of cord is released, the **STRAPEEZ™** will not be lost or misplaced. Your customers will think of endless uses for these versatile straps. A few little **STRAPEEZ™** can make a big difference!

SOFT POUCH™ – ZIPPEEZ

- Full-width zippered neoprene case fits most compact film and digital cameras. The horizontal design securely attaches to a belt for easy access and convenience
- Main pouch has gusseted sides for maximum accessibility while front pocket offers storage for media cards, batteries and more
- Medium and Large sizes come with a webbing strap

SOFT POUCH™ – ZIPPEEZ is a unique line of zippered neoprene pouches designed to carry your gear horizontally on your belt. It also has a neoprene inner panel between the pouch and the front pocket. This allows the main compartment to stretch in size to fit slightly larger cameras. The front zippered pocket is a great place to store extra film, media cards, batteries and more.

OP/TECH USA CAMERA COVERS

The OP/TECH USA SOFT POUCH™-BODY COVER, DIGITAL D-SERIES, and SLR & RANGEFINDER neoprene camera pouches reflect the latest trends in outdoor photography. Many photographers have discovered that with longer battery life, better lenses and other advances in technology they no longer need to carry a large bag. They can shoot all day with a single camera body, lens, and even battery and memory card. The OP/TECH USA camera pouches are an ideal solution for protecting cameras and lenses against dust, moisture and impact. In colder weather they even provide a measure of insulation, helping to extend battery life. Fully compatible with a camera strap, there's no need to carry a separate bag. Since they can be removed in about three seconds, there's no need to worry about missing those rare photo opportunities in the field! They also provide convenient protection while in storage. Available in a variety of sizes and styles, it's easy to find the right fit for almost any camera.

SOFT POUCH™ – BODY COVER

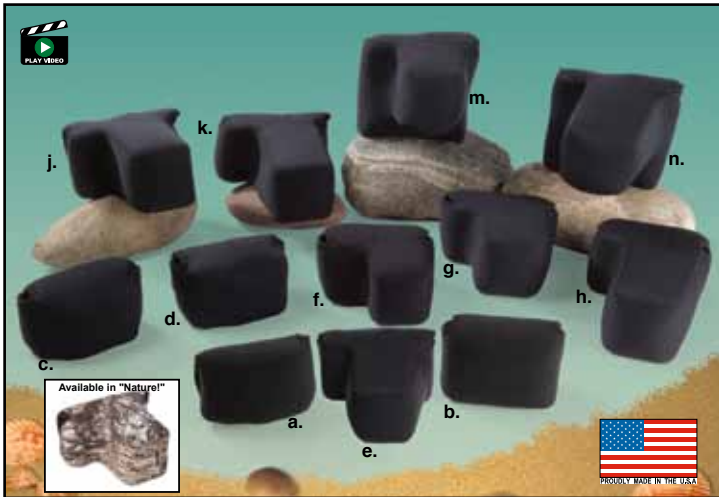

- Innovative neoprene case snugly fits the camera body protecting it from dust, moisture and impact
- Design offers more depth to better accommodate larger digital bodies
- Offered in three sizes:
 - Manual: fits most rangefinder and manual SLR bodies (Not Shown)
 - a. Auto: fits most auto-focus SLR bodies
 - b. AF-Pro: fits auto-focus SLR bodies with extended power drives

The SOFT POUCH™-BODY COVER provides ideal protection for the camera body while in storage. The form-fitting neoprene cover protects against dust, moisture and impact so there's no worry when putting it in a large camera bag full of other items. The flap cover snaps on the bottom of the pouch for extra security. For the avid photographer who frequently carries several lenses and camera bodies, the SOFT POUCH™-BODY COVER for cameras and SNOOT BOOT™ (see 13) for lenses combine to make a great protective storage system.

SOFT POUCH™ – BODY COVER				
	Description	Approx. Size (W x H x D)	Black	Nature
	Body Cover, Manual	5.75" x 3" x 2" (14,6 x 7,6 x 5cm)	8201114	8210114

NEW STYLE! SOFT POUCH™ – DIGITAL D-SERIES

- Easy-access neoprene case fits most film and digital cameras
- Unique retaining strap offers several options for attaching to the camera or belt (The D-Micro, D-Mini, D-Small, D-Offset and D-Compact have a snap hook lanyard that attaches to the camera strap)
- Great for use in the field as the case closes around the neck strap so that the strap is still usable
- Nonmarring snaps on the bottom of the pouch securely close the flap cover
- (See Camera Fit List in the *product references* section of our website www.optechusa.com)

The **SOFT POUCH™ – DIGITAL D-SERIES** offers a unique protective carrying system that's ideal for the photographer on the go. The easy-access design enables the photographer to quickly access the camera. (Trick: invert the case when taking it off the camera and reverse the process when putting it back on.) The compact, tailored fit offers great protection without the bulk of a large camera bag. As camera batteries last longer and media cards hold far more storage, there's no need for a large cumbersome photo bag to carry extra supplies. What is still necessary more than ever before with delicate digital cameras is the need for good protection against impact, dust and moisture. The **SOFT POUCH™ – DIGITAL D-SERIES** offers great protection in a streamlined design so it's a pleasure to take along on a photo shoot or to pack within another bag.

* not shown

Digital D-Series and Rangefinder feature a nonmarring snap closure on the bottom of the pouch.

SLR pouches feature quick disconnect closure on the bottom of the pouch.

SOFT POUCH™ – SLR & RANGEFINDER

- Easy-access neoprene case to fit most SLR & Rangefinder cameras
- Protects camera & lens while in use or in storage against impact, dust & moisture

- Unique retaining strap offers several options for attaching around the lens, to the tripod mount area or to a belt
 - Quick disconnect or snaps for secure closure
- SLR MANUAL fits most cameras with a standard 50mm lens
 - SLR AUTO fits most cameras with 28-80 or 35-80mm lenses
 - SLR AF-ZOOM fits most cameras with 28-200 or 28-210mm lenses
 - SLR AF-PRO fits most film camera/lens combos with extended power drives
 - RANGEFINDER fits most rangefinder cameras as well as some manual SLR & newer style cameras

RANGEFINDER-TELEPHOTO (not shown) fits the same cameras as the Rangefinder; however, it will accommodate a zoom lens measuring up to 2.75" in diameter and 4.5" in length.

SOFT POUCH™ – SLR

	Stock #	Description	Approx. Size (W x H x D)	Color

3 Attachment Systems

Quick-Snap Retaining Strap Kit is included with Digital D-Series (except D-Micro, D-Mini, D-Small, D-Offset & D-Compact) and SLR & Rangefinder pouches. It attaches in three different ways:

SNOOT BOOT™

- Protects most lenses and tripod ball heads against dust, moisture & impact
- Wide-mouth opening and cylindrical design for better fit
- Drawstring closure, belt loop and snap hook attachment
- Available in black in SEVEN sizes

These are no ordinary pouches. No longer do lenses have to be put in a square pouch—the **SNOOT BOOT™** is cylindrical just like a lens. They are also ideal for tripod ball heads as they can be secured to the ball head when it's attached to the tripod or when it's stored separately. The neoprene **SNOOT BOOT™** pouches offer great protection and easy access. They even offer a convenient alternative for carrying a small camera or other items. (See also GIMBAL HEAD COVER™ on 17)

Great for Tripod Ball Heads too!

SNOOT BOOT™

LENS/FILTER POUCH™

- Innovative protective case provides an easy-access carrying system for a lens and two filters. Protects against dust, moisture and impact
- Offers two protective sections to better organize gear: Zippered filter section with a padded protective divider holds two filters while the wide-mouth lens section offers ease of use and accommodates larger lenses with sunshades
- Drawstring closure, padded dust flap, snap attachment and belt loop finish off the lens section

NEW! BODY CAP

- **BODY CAP** protects camera's delicate interior
- Unique rubber O-Ring seal locks out dust and moisture
- Customized fit is available in two versions: Canon and Nikon

OP/TECH USA's **BODY CAP** is perfect for protecting the inside of a camera while storing a camera body separately from a lens. The unique rubber seal effectively grips to the camera body and forms a friction fit to lock out damaging dust and moisture. The customized fit and solid construction can't be beat!

Whether in the studio or in the field, protecting the substantial investment of a camera is vital to prolonging its life and usability. The **BODY CAP** offers unparalleled protection and ease of use. Be sure to check out the **LENS MOUNT CAP**.

BODY CAP

Canon	Nikon
1101311	1101321

LENS MOUNT CAP

- **LENS MOUNT CAP** provides increased protection over traditional covers
- Unique O-ring seal locks out dust and moisture
- Available in single (one lens) and double versions (holds two lenses together)
- Available for Canon, Leica M, Nikon, Pentax and Sony/Maxxum lenses

The **LENS MOUNT CAP** from OP/TECH USA is sure to be a hit with both amateur and pro photographers. It's no ordinary cap... the benefits and versatility are sure to please. It's designed with an O-ring seal which creates a positive contact with the full perimeter of the lens mount area to really lock out dust and moisture. It also offers a tighter friction fit over traditional caps that come with the lens so that it provides better protection to the lens mount area. This ensures that the **LENS MOUNT CAP** is securely held in place while in storage or transit. The **LENS MOUNT CAP** is available in single or double versions for several lens models. The double version is a great way to quickly switch lenses on a camera, minimizing the time the camera's sensor is exposed. Simply remove the lens from the camera and engage it in the available end of the double **LENS MOUNT CAP**. Then the other lens can be removed from the cap to be attached to the camera. Keeping gear protected in a compact fashion really helps the active photographer organize and plan for their next photo adventure.

Step up to more secure protection with the **LENS MOUNT CAP** from OP/TECH USA. It's the final touch that no lens should be without!

LENS SLEEVE™

- Neoprene sleeve provides great protection for lenses
- Can be combined with any size Hood Hat™ for a truly customized system
- Provides quick and easy access
- Available in several lengths

LENS SLEEVE™ offers a unique alternative to protecting lenses. The neoprene sleeve easily slides

onto the lens and has the option of being combined with any size Hood Hat™ (sold separately, see below) to create a totally customized system. Lens Sleeve™ comes with a touch fastener tab with a plastic connector that can be secured to the leather tab of a HOOD HAT™ (See image). This simple system enables the LENS SLEEVE™ and the HOOD HAT™ to be connected together for added protection. For the photographer who uses sunshades and prefers to keep them attached to the lens, the LENS SLEEVE™ and the HOOD HAT™ combination is a must!

LENS SLEEVE™ - Black Only

HOOD HAT™

- Protects the lens from dust, moisture and impact when using a hood, sunshade or nothing at all
- Neoprene HOOD HAT™ slides on with a friction fit
- Can be combined with any size Lens Sleeve™ for a truly customized system
- Ideal for cameras, spotting scopes, telescopes & binoculars
- Cylindrical design for better fit

Finally you can protect your lens when using a hood or sunshade. The neoprene HOOD HAT™ slides over the sunshade to protect the lens from dust, moisture and impact. Its tapered cylindrical design makes it easy to apply and easy to remove, yet it won't fall off. When combined with the LENS SLEEVE™ (sold separately, see above) it creates an ideal solution for storing lenses with hoods. When shooting with longer lenses the HOOD HAT™ can be joined with our exclusive LENS SUPPORT ADAPTOR (see page 3) to combine lens protection with stabilization. HOOD HAT™ is sure to be an essential part of your gear. Download the sizing chart on our website at www.optechusa.com/Product-Reference-Charts.

WORK MAT

- Transforms any area into a clean & safe work place
- Neutral gray color keeps small items visible
- Portable work surface rolls into a convenient carrying pouch for storage or transportation

OP/TECH USA's **WORK MAT** is a great way to protect both gear and the work surface. The soft rubberized surface grips to keep small parts in place and resists the effects of cleaning chemicals and oils. **WORK MAT**'s neutral gray color makes it easy to see very small items and the textured surface prevents items from rolling away. Photographers will find many uses for the **WORK MAT** on their next outing.

WORK MAT™

SOFT POUCH™ – BINO

- Neoprene pouches designed for both roof and porro-style binoculars
- Protects optics from dust, moisture and impact while in use or in storage
- Includes full-flap coverage and a waist strap for added stability (adjusts up to 60")
- Available in several sizes/styles in black & nature

The **SOFT POUCH™–BINO** offers the user a unique storage pouch with a built-in rain guard in addition to a well-designed carrying system. It comes with a waist strap which stabilizes the pouch snugly against the user's body while offering fast, easy access to equipment. Merely fold back the top flap to quietly release the binoculars. Combined with an OP/TECH USA weight reduction neck strap, the user has a comfortable and functional system unmatched by any other.

SOFT POUCH™ – BINO WRAP™

- Perfect for field use
- Self-contained pouch remains with binoculars
- Slim enough to wear under a coat
- Works in tandem with a strap
- One size fits many different sizes

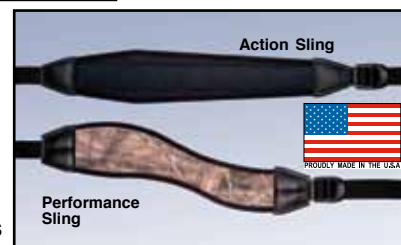

OP/TECH USA's easy-access solution for the outdoor enthusiast! The **SOFT POUCH™–BINO WRAP™** is great protection for binoculars while in use or in storage. It is extremely handy for use in the field as there is no need to fumble with a separate case– simply unsnap the closure and refasten it above the binoculars. A heavy-duty elastic band secures the **SOFT POUCH™–BINO WRAP™** to the binoculars. Its slim design allows it to be worn with a neck strap and can even be worn underneath a coat! The **SOFT POUCH™–BINO WRAP™** fits many different roof-style binoculars as it uses a combination of three separate snap configurations and the stretch of the neoprene. Enthusiasts can spend more time looking through the binoculars than fussing with the case. **SOFT POUCH™–BINO WRAP™** is only from OP/TECH USA!

ACTION SLING™

PERFORMANCE SLING™

- Designed for comfort
- Non-skid surface
- Easy to attach
- Lifetime Warranty

OP/TECH USA incorporates a patented comfort-stretch

system into the **ACTION SLING™** and the **PERFORMANCE SLING™**. The neoprene material effectively conforms to the contours of the shoulder while evenly distributing the weight. The internal control-stretch system absorbs the shock of movements normally felt in the shoulder and back. The unique curved shape of the **PERFORMANCE SLING™** helps keep the rifle on the shoulder and in a natural vertical position. Both slings feature a Non-skid surface which effectively grips to the shoulder and also provides extra security when wrapping around the arm to better stabilize the firearm when shooting.

STOCK COVER

- Neoprene cover protects stock while offering additional ammo storage for fast and easy reloading
- Available in five versions: Rifle, CO², Shotgun, Combo or Universal (no loops)
- Two most popular styles available in left or right hand versions
- Easy to attach, maintains its snug position and maximizes comfort

The Stock Cover is a "must have" for all hunters. The Universal version is smooth on both sides while the Rifle, Shotgun and Combo versions use rubber backed elastic loops that help keep ammo firmly in place and convenient for rapid reloads. We use quality grade neoprene for superior protection against impact and abrasion, as well as extra cushion and increased comfort against the face. Another benefit is that the neoprene can stretch over the butt of the stock so there's no need to remove the scope.

GIMBAL HEAD COVER™

- Neoprene pouch fits most gimbal-style tripod heads
- Protects the head while attached to the tripod or when it's stored separately
- Drawstring closure with barrel lock secures it firmly on the head
- Available in black and measures 10" w X 12" h in its flat form

OP/TECH USA's GIMBAL HEAD COVER™ is an ideal way to protect most gimbal-style tripod heads from impact, dust and moisture. It can be attached when the head is connected to the tripod or when it's stored separately. The drawstring closure and barrel lock securely closes the pouch yet provides quick and easy access when necessary. This versatile neoprene pouch is also great for protecting cameras, lenses and other gear. (See SNOOT BOOT™ on 13)

SOFT POUCH™ – COMPUTER SLEEVE

- Protects valuable electronics against dust, impact & moisture
- Slim design fits easily in briefcase
- Neoprene pouch has full flap cover that secures with leather tab and touch closure

Protect expensive computer gear, portable DVD players, external hard drives and other valuables with the OP/TECH USA SOFT POUCH™ – COMPUTER SLEEVE. Soft, durable neoprene sleeve protects against dust, moisture and impact. It will also stretch to fit a slim tablet, cable and power supply. The slim design fits easily in a briefcase, book bag or messenger bag. The flap secures with a touch closure so there's no fumbling with zippers that can break or malfunction. Available in seven sizes.

OP/TECH USA®

Where innovation begins and comfort never ends!

SOFT POUCH™ – SCOPE

- Designed for both straight and angled scopes, these protective neoprene pouches safeguard optics from dust, moisture and impact while in use or in storage
- Includes a retaining strap to attach to a tripod or monopod
- Available in several sizes/styles in black & nature

The SOFT POUCH™ – SCOPE offers a new approach to protecting valuable optics. It stretches snugly over the eye and objective ends in order to keep out dust and avoid scratching. It's available in two styles and several sizes to fit most scopes on the market. The SOFT POUCH™ – SCOPE has a small retaining strap which secures the pouch to a tripod/monopod while in use. There's no need to worry about misplacing it.

RETRIEVE-IT™

- Offers a secure and convenient easy-access system
- Attaches easily to a variety of equipment/gear or clothing with a choice of split rings or a snap hook
- Nylon-coated stainless steel cable extends up to 30" (76,2cm)
- Fully retracts an item weighing up to 6 ounces (170g); however, it can secure an item weighing up to 10 pounds (4,54kg) in the fully-extended position
- Sleek design measures 1 1/2" (3,8cm) in diameter and 1/2" (1,3cm) thick

The RETRIEVE-IT™ offers a secure system for carrying a variety of items (camera, binocular, radio, phone, tool, keys and much more). It enables the user to extend the item far enough for normal use while offering added security in case the item is dropped. It then retracts the item safely out of the way when not in use. Everyone needs a spare hand from time to time in order to hold all the gadgets that they simply can't function without. RETRIEVE-IT™ fits the bill perfectly!

NEW! DOUBLE SLING

- Slings two cameras comfortably and securely
- Unique neoprene pad design evenly disperses the weight and balances the gear at one's sides
- Easy to attach and fully adjustable
- Interchangeable design enables the user to convert from a dual to a single sling system or to quickly move a camera to another OP/TECH USA strap

OP/TECH USA's **DOUBLE SLING™** offers another alternative to the ever-popular **DUAL HARNESS™**. For those photographers wanting the feel and the fast action of the **UTILITY STRAP™**—**SLING** for carrying two cameras, the **DOUBLE SLING™** is the answer. Its U-shaped neoprene pad effectively distributes and balances the weight of two cameras while absorbing the shock of the photographer's movements. It offers the popular **UNI-LOOP CONNECTORS** (See on 3) to attach to the cameras. The strap also has added flexibility in that it can be adjusted to carry only one camera if desired. When carrying two cameras, the camera that is attached to the left side of the **DOUBLE SLING™** will only use one Uni-Loop Connector mounted to the left side connection area of the camera. The camera mounted to the right side of the **DOUBLE SLING™** can either use one or two connection areas on the right side of the camera depending on the type of camera. (Some cameras offer an additional connection area on the lower right side of the camera. In those cases, both Uni-Loop Connectors will be attached to the two side connection areas.)

The **SLING ADAPTER SYSTEM** used on the **DOUBLE SLING™** can be removed from the U-shaped pad and added to any other OP/TECH USA standard strap pad to create an over-the-shoulder sling strap. This interchangeable design gives the photographer flexibility to customize their gear to fit their ever-changing needs. Comfort, security and flexibility sum up the features of the **DOUBLE SLING™**. Give it a try!

- Quick Disconnects plus 2 Uni-Loop connectors
- Non-Skid Surface

The **UTILITY STRAP™** is now available in three styles: Original (swivel hooks), 3/8" & the New Sling version. The Sling version offers rapid access to gear while maintaining the security of a strap worn across the shoulder. The **UTILITY STRAP™—SLING VERSION** comes with two of OP/TECH USA's exclusive Uni-Loop connectors. Most cameras will only need one, but for cameras with a third strap-connection point or when used with a battery grip, the second Uni-Loop will be used. The gear hangs securely at the side and will glide up and down the sling without interfering with a camera's tripod connection. The neoprene strap incorporates the patented OP/TECH USA internal-control stretch system to offer added support and ideal comfort. This strap is designed with the avid photographer in mind. The non-skid surface keeps it securely on the shoulder and the added comfort makes carrying heavy gear a joy. See the demo video at www.optechusa.com/Video-Gallery

UTILITY STRAP™

Color	from top of shoulder to end of Uni-Loop connector 26.5" - 31" (67,3 cm - 78,7 cm)

Nature	3510242

DUAL HARNESS™

- Comfortably and securely carries two cameras or binoculars
- Unique pad design evenly disperses the weight and balances the gear at one's sides
- Removable chest strap adds extra support and stability
- Easy to attach and fully adjustable with OP/TECH USA's System Connectors
- Interchangeable design enables the user to convert from a dual to a single sling system or to quickly move a camera to another OP/TECH USA strap

See demo video on our website!

The **DUAL HARNESS™** from OP/TECH USA is a comfortable and versatile way to carry one or two cameras or binoculars. The unique U-shaped neoprene neck pad evenly distributes the weight of the gear while absorbing the shock of one's movements and eliminating interference between the two cameras. As the **DUAL HARNESS™** uses the gear's normal connector attachments, the gear remains safely in the upright position at one's sides. This keeps the camera stabilized and secured within one's view and grasp. By also maintaining the camera in the upright position, no stress is put on the camera, lens or shoe-mount flash units. The cameras can be quickly and easily brought to the proper shooting position with the self-gliding connectors. As the **DUAL HARNESS™** incorporates OP/TECH USA's System Connectors, the tripod mount is available to use for brackets and other adaptors. These connectors also make it possible to quickly switch to another OP/TECH USA neck strap when desired.

The interchangeable design enables the user to convert from a dual to a single system, and the removable chest strap adds an extra measure of security. With the gear safely stowed, the photographer is free to concentrate on taking the perfect photo.
